

Skills

Programming Languages: Java, JavaScript, TypeScript, Python, SQL, C/C++
Core CS Fundamentals: Data Structures & Algorithms, OOP, OS, DBMS, CN, System Design
Frontend Development: React.js, Next.js, Tailwind CSS
Backend Development: Node.js, Express.js, REST API Development
Databases & Cloud: MongoDB, MySQL, Firebase, Supabase, Microsoft Azure
AI & Machine Learning: Machine Learning, LLMs, Retrieval-Augmented Generation (RAG)
Developer Tools: Git, GitHub, Docker, Linux

Experience & Leadership

Arjun Innovation Incubation & Entrepreneurship Foundation (DAIIEF), Kolhapur Jan 2025 – Present
Tech Lead

- Strengthened multiple early-stage startup pitches by implementing technical feasibility reviews and AI-driven guidance, which shaped decisions within a Section 8 incubation program.
- Advanced an original startup idea by developing it independently end-to-end, which led to its selection for incubation.

Coding Club, DYPCET, Kolhapur Aug 2024 – Present
Chief Executive & Mentor

- Grew workshop reach by organizing 10+ technical sessions, which engaged 100+ student participants across the club.
- Strengthened peer growth by mentoring students directly, which built a more active, sustained coding culture on campus.

ICRTET 2026 (DYPCET), Kolhapur Nov 2025 – Feb 2026
Web Development Lead

- Delivered the ICRTET 2026 conference website by implementing end-to-end registration and abstract submission on the MERN stack, which supported 200+ teams and close to 200 abstracts with minimal manual work.

Self-Employed, Remote Jan 2025 – Jun 2025
Freelance Software Developer

- Delivered production-ready full-stack web applications by implementing the MERN stack, REST APIs, and AI/ML features, which met client requirements and were delivered on schedule.
- Increased client retention by delivering end-to-end software solutions, which resulted in repeat engagements.

Education

D. Y. Patil College of Engineering and Technology, Kolhapur Jun 2023 – Present
B.Tech (Computer Science and Engineering), CGPA: 9.08

Projects

AlgoViz – Algorithm Visualizer Web App | [GitHub](#) Dec 2025 – Jan 2026
React, Vite, Tailwind CSS, Framer Motion, LottieFiles, Firebase, Node.js, RAG

- Launched an interactive visualization platform for algorithms, empowering users to explore data structures and algorithms with 20+ distinct visual modules.
- Implemented quizzes, practice modules, and notes, boosting quiz completion rates by 40% and enhancing interview readiness.
- Integrated an AI-powered assistant for algorithm explanations, reducing manual doubt-resolution time by 60%.

Blackhole – AI-Powered Edge-Based Exam Proctoring System | [GitHub](#) Jun 2025 – Oct 2025
Python, OpenCV, YOLO (Ultralytics), Firebase, Raspberry Pi, Telegram API

- Engineered a real-time AI-based exam monitoring system for secure online and offline examinations using YOLO and OpenCV, deployed on a Raspberry Pi for edge inference with optimized performance using NCNN and frame-skipping techniques.
- Reduced manual supervision effort by 60–70% and enabled real-time monitoring by triggering instant Telegram alerts with image proof and logging 100+ detection events in Firebase with confidence scores, frame IDs, and timestamps.

Socratic – AI-Based Learning Evaluation System | [GitHub](#) Mar 2026 – Apr 2026
Next.js, Node.js, MongoDB, RAG, Groq (LLaMA), Gemini API, Clerk, Tailwind CSS

- Built a Socratic learning system where users teach an AI student, reducing passive learning and improving concept retention by 50%.
- Developed a misconception detection engine with real-time alerts and blind spot tracking, reducing conceptual errors by 60%.
- Designed a metadata-driven evaluation pipeline with dual-layer radar analysis (theoretical vs practical) and source-authenticated corrections to convert conversations into measurable learning insights.

Research & Publications

- EduChainSentinel: A Blockchain-Integrated Real-Time Sentiment Analysis and Exam Proctoring System** Co-author, 2025 IEEE International Conference on Blockchain and Distributed Systems Security (ICBDS), IEEE Xplore.

Achievements

- LeetCode** – Contest Rating **1726** (Top **12.02%** globally); solved **446+** DSA problems.
- Startup Incubation** – Selected by DAIIEF, Kolhapur for an EdTech solution
- Special Achievement Award** – Honored by DYPCET Kolhapur for excellence in innovation and technical contributions.
- 2nd Place** – National-Level Ideathon 2025, Arjun Innovations Foundation (DYPCET)
- 3rd Place** – National-Level Innovation Idea Presentation 2025, SIT Yadrav
- Runner-up** – Avishkar Research Competition (District Level, represented at the University)
